Who is eligible for accommodations?

- Students with Disabilities (SWD) with an active IEP
- 504 plan

STUDENT PARTICIPATION IN ASSESSMENTS

The participation of students with disabilities in assessments is required by the following federal and state laws:

- reauthorization of the Elementary and Secondary Education Act (ESEA)
- Individuals with Disabilities Education Improvement Act of 2004 (IDEA)
- State Laws

Accommodations Defined

- Accommodations are practices and procedures in the areas of presentation, response, setting, and timing/scheduling that provide equitable instructional and assessment access for all eligible students.
- Accommodations reduce or eliminate the effects of a student's disability and do not reduce learning expectations.

ACCOMMODATIONS vs. MODIFICATIONS

MODIFICATIONS-

- practices that change, lower, or reduce learning expectations
- may change the underlying construct of an assessment

ACCOMMODATIONS vs. MODIFICATIONS

ACC MOD

1. requiring a student to learn less material (e.g., fewer objectives, shorter units or lessons, fewer pages or problems),		
2. allowing student to dictate their written response to a computer that will type out what is said.		
3. uses a talking calculator to figure out math problem		
4. reducing assignments and assessments so a student only needs to complete the easiest problems or items,		
5. revising assignments or assessments to make them easier (e.g., crossing out half of the response choices on a multiple-choice test so that a student only has to pick from two options instead of four),		
6. giving a student hints or clues to correct responses on assignments and tests.		
7. using a magnifying sheet to read assessment items.

Connecticut's statewide summative assessment system consists of the Connecticut Mastery Test (CMT), the Connecticut Academic Performance Test (CAPT), the CMT/CAPT Skills Checklist and the CMT/CAPT Modified Assessment System (MAS). Together these assessments reflect curriculum and instruction that Connecticut educators and other stakeholders believe are important to promoting positive outcomes for all students. This system measures progress toward the educational goals established as mastery criteria and state standards for each content area tested.

Connecticut's two alternate assessments, the CMT/CAPT Skills Checklist and the CMT/CAPT MAS, are available for students with disabilities enrolled in Grades 3 through 8 and Grade 10. Only identified special education students meeting specific eligibility criteria may be assessed with these alternate assessments if determined by an Individualized Education Program (IEP) team.

The Connecticut Mastery Test (CMT) is the standard assessment administered to students in Grades 3 through 8. Students are assessed in the content areas of reading, mathematics, writing and science (Grades 5 and 8). Reports of individual student achievement relative to performance standards in each of these content areas are provided to the school districts and parents/guardians of each student tested. The CMT provides information about achievement that is used for many purposes including:

- setting high expectations and standards for student achievement;
- testing a comprehensive range of academic skills;
- disseminating useful test achievement information about students, schools and districts;
- identifying students in need of intervention;
- assessing equitable educational opportunities; and
- monitoring student progress in Grades 3 through 8 over time.
